

# FURKAN ÖZYURT

## Senior React Native / Frontend Developer

[furkanozyurt.com](https://furkanozyurt.com) · [furkanozyurt90@gmail.com](mailto:furkanozyurt90@gmail.com) · [linkedin.com/in/furkan-ozyurt](https://linkedin.com/in/furkan-ozyurt) · +90 552 578 5966

---

Senior React Native–focused Frontend Developer with 6+ years of experience building web and mobile products with React and TypeScript. At UpVisit, I delivered CMS and mobile event applications used by 10K+ users. At FruPro, we reduced Sentry-reported production bugs by ~80% within 4 months and improved performance metrics (startup time, FPS, bundle size, crash-free rate). At CargoNXT, I streamlined release workflows by implementing Sentry- and Jira-triggered agent automation and automated test workflows.

### SKILLS

---

**Core:** Javascript, React Native, React, TypeScript, Next.js (Pages/App), Redux/RTK, React Query, RestAPI, Mobile Release (App Store/Google Play, TestFlight)

**State/Data: Testing/CI/Monitoring/UI:** Playwright, Cypress, GitHub Actions, AWS, Sentry, Tailwind, MUI, AntD

**Focus:** Performance Optimization (startup/FPS/bundle/crash-free), AI-assisted Dev (Sentry/Jira to PR)

### EXPERIENCE

---

#### [CargoNXT — Senior Frontend Developer \(Remote\)](#)

*Jun 2025 - Feb 2026*

**Tech:** TypeScript - React - Next.js - Redux/RTK - React Query - Sentry - GitHub Actions

- Owned greenfield product development across frontend and backend, defining project structure and core architectural decisions.
- Built a project-specific prompt/rule set to standardize AI-assisted development and ensure consistent PR quality.
- Implemented a Sentry-triggered workflow that creates automated fix PRs via Cursor agents.
- Integrated automated test generation into the feature delivery process to improve release quality.

#### [UpVisit — Senior Frontend / React Native Developer \(Remote\)](#)

*Oct 2023 - Jun 2025*

**Tech:** React Native - React - TypeScript - CMS - Sentry

- Built and maintained both the CMS and the mobile app for a B2B event platform, implementing the end-to-end flow from CMS content entry to mobile publishing.
- Implemented an AI-assisted CMS workflow using structured prompts to generate and maintain multi-language event content.
- Improved the in-app dynamic map/navigation experience, implementing attendee guidance flows for on-site event venues.
- Monitored stability and managed production issues via Sentry during events with 10K+ users (e.g., ETH AI Center, TEDxFrankfurt, AI House Davos, Start-up BW Summit).

#### [FruPro — Senior Frontend / React Native Developer](#)

*Nov 2022 - Sep 2023*

**Tech:** React Native - React - TypeScript - Redux/RTK - React Query - Sentry

- Analyzed and improved performance and stability issues in a legacy application while co-developing a next-generation replacement in parallel.
- After launching the new app, reduced Sentry-reported production bugs by ~80% within 4 months through stability-focused improvements.
- Built UI flows supporting foreign trade users, including document generation, real-time messaging, and in-app sales workflows.

## Tamer Capital — Frontend Developer (React / React Native)

Jul 2021 - May 2022

**Tech:** React - React Native - TypeScript - MetaMask

- Built the web editor UI for Car Studio AI, enabling users to position extracted vehicle images, choose backgrounds, and export outputs for sales platforms.
- Integrated the editor with backend services, owning end-to-end UI flows for image-processing results, job/status tracking, and asset management.
- Implemented Web3 purchase flows, including MetaMask wallet connection, transaction initiation, and clear UI states for confirmations and error handling.
- Contributed to React Native mobile apps for both Car Studio AI and crypto products, adapting core web workflows for mobile use.

## SELECTED PROJECTS

---

### BalloonScanner (B2C Web) — Frontend & SEO Owner

**Tech:** Next.js (App Router) - TypeScript - SEO - React Native WebView compatible

- Built the web application end-to-end using Next.js App Router, with a React Native WebView-compatible implementation for mobile.
- Led technical SEO and page performance optimization, achieving 90+ Google performance scores.
- Delivered a production-ready frontend that supports active sales and SEO-driven growth.

## EDUCATION

---

**Bandırma Onyedi Eylül University**

Department of Computer Science

## LANGUAGES

---

**Turkish** — Native

**English** — Professional Working Proficiency
